

Our services

1. Membership plans

All services will be performed in the language chosen for the respective target market.

Unless otherwise agreed, review, Trustmark and guarantee services are in principle performed for one (1) online presence (shop) owned by the member, under one domain, in one language version and aimed at a specific target market. For the performance of services for further online presences (e.g. further language version, further domain), additional certificates must be acquired. Additional certificates may be registered inside the Trusted Shops Online System.

2. Additional options.

Membership plans are presented on the Trusted Shops website and consist of different individual services, which are described in detail below. Individual services may be booked inside the Trusted Shops Online System at any time.

Additional options can in principle be ordered for one online presence (shop) as defined above. For the performance of services for further online presences (e.g. further language version, mobile view or further domain), additional shop-specific options must be acquired.

3. Trustbadge® with reviews.

Integrate your Trustbadge within minutes. You receive a step-by-step integration guide including examples and tips. Show your seller rating and stars to new and existing customers when they visit your shop. You can also configure this to compliment the design of your website. By clicking on the Trustbadge, the customer is directed to the detailed shop review profile saved by Trusted Shops (average rating, individual ratings, number of ratings and customer reviews). The easy-to-integrate Trustbadge is updated once daily and automatically transferred to your shop. That means that after the simple, one-time only integration, no more technical effort is required on your part.

4. Customer reviews.

Verifiable positive ratings and customer reviews are an important indication of an online shop's trustworthiness for online shoppers.

The rating system provided in the agreed language includes the following functions:

- Online shop customers have the option of rating the shop based on at least one of the three predefined criteria which are customer service, delivery and product using a form provided by Trusted Shops (hereinafter referred to as "rating"). Rating stars on a scale of 1 to 5 can be awarded for each criterion, with 5 stars being the best.
- If you offer services via your online presence the 1-category-system is at your disposal. You customer can rate your online-presence according to the criterion "service". When offering goods you can benefit from our 3-category-system. The use of the 1-categorie-system will not be possible in this case. If you want to use the 1-category-system first and later on offer goods as well you will have to change to the 3-category-system. All collected ratings will be reset. The same applies accordingly to a change from the 3-category-system to the 1-category-system.
- Collection of customer reviews (comments) using an online form provided by Trusted Shops.

The ratings and customer reviews (jointly "ratings") are permanently stored and can be viewed by the online shop and Trusted Shops employees in a secure area of the online system for a period of 12 months.

Review profile.

Your customers reviews can be seen on your Trusted Shops review profile. Not only is this Search Engine Optimised (SEO) but its responsive design means it looks great on mobile and tablet too.

The review profile includes a summary of the ratings submitted in the last 12 months. An overall rating is calculated from all the ratings submitted during the last 12 months. Each of the criteria is included in the overall

rating, weighted according to the number of ratings submitted. The rating profile specifies the star rating which the shop has achieved on the five-star rating scale based on the weighted average.

An average rating is calculated as follows:

Five-star scale	Overall rating
5 to 4.5	Excellent
< 4.5 to 3.5	Good
< 3.5 to 2.5	Fair
< 2.5 to 1.5	Poor
< 1.5 to 0	Very poor

Ratings and the rating profile are permanently stored and can be viewed by the online shop and Trusted Shops employees in a secure area of the online system for a period of 12 months.
